As conclusive evidence that the power of the Press may be advantageously applied to business, it is only necessary to advert to the incontrovertible fact that large fortunes have been made, in a short time, from small beginnings, by those who have advertised extensively in country newspapers. #### Proclamation,

Proclamation,

By Hamilton Fish, Governor of the State of New-York.

The mercles of an all-kind Providence call for an acknowledgment of gratifude and of dependence from the creatures of his bountles.

The year which is about to close has been marked by in-

numerable blessings to us as a Nation. Abundant harv-est and profitable labor have brought rich rewards to honcertain promises and tranquility are established at home; and no discord disturbs our relations abroad.—
Health, presperity and abundance have been freely vouch-safed to us. Civil and religious liberty prevail throughout the length and breadth of the land. And to us all is secured the free exercise of the worship of their Creator active to the control of the contr ording to their own faith. And on this occasion we should of forget that while an inscrutable Providence has seen fit to remove during the past year the Chief Magistrate of our Union, that same Providence has preserved us under the trial a free and a united People, has saved us from an archy or civil commotion, and has continued to us the mild operation of a Government of our own adoption and rulers

four own choice.

I do, therefore, designate and recommend THURSDAY, THE TWELFTH DAY OF DECEMBER NEXT, to be observed by the good People of this State as a day of Public Thanks

iving to Aimighty Cod.

In witness whenced I have hereunto subscribed my nafin and affixed the Privy Scal of the State, at the City [1. x.] of Albany, the Sist day of October, one thousand eight hundred and fifty.

By the Governor: HAMILTON FISH.

Rour. H. Morkis, Private Secretary.

#### Wood and Kingsland.

We are urged to publish statements and documents impeaching the personal integrity of Fernando Wood, the Tammany cansort of warfare. The grossness and ferocity of the Loco-Foco attacks on the private | curred in by the class with whom they ascharacter of Mr. Kingsland, the Whig can- sociate-those who congregate in Bank pardidate for Mayor, afford very strong provothose who know them severally, and learn | mour's majority. what is the true standing of each. We do not believe the result will be flattering to | tricts' that the defection here is mainly on himself.

The Whig Strongholds.

We hope to hear the lhudest thunder of WASHINGTON, ONTARIO, MONROE, LIVING-STON, GENESEE, ERIE, and CHAUTAUQUE Counties next Tuesday night. Those seven Central and usually balanced Countiesold strongholds poll but their full vote and | more the State must go right. Friends throughout the State! will you take care that the

struggle ! ever else you may vote or scratch, be sure to vote this strait and clean. A great mamy of the Farmers, we regret to say, are very bitter against the Free School cause. and will bring out a heavy vote against it. Let no friend of Universal Education fail to vote for Free Schools.

# Whig Merchants.

Friends from the Rural Districts of our State, now visiting our city, we entreat you to go home to-night! Your votes and your influence are wanted there. Don't calculate your time so nicely as just to be able to reach home in season to vote. You owe your country more than a naked vote-pay t emply and cheerfully! Be home on Monday morning if you can, but on Tuesday morning at furthest. Give to Patriotism at least one day!

Elected a Whig Member of the new Legislature of Ohio, who will very probably choose a U.S. Senator from that State for the next six years. One Vote may in like manner decide the character of the next withheld should lose us that Senator, be sure it is not yours!

work for N. B. BLUNT for District Attorney, not because he is a Whig, for that has nothing to do with such an office, but because we believe him incomparably the abler, more experienced and fitter man for the post. It will be time enough for Mr. John Graham to aspire to a station of such grave and varied responsibility some years hence. We care not a button whether the Public Prosecutor is called a Whig or something else; we are only solicitous that, whenever called in the line of his duty, he shall not be found wanting. We shall feel sure of this with Mr. Blunt as District Attorney.

THIRTEENTH WARD - The Whig nominee for the Assembly in this Ward (James Dewey) was nominated Thursday evening by the Carpenters as the Workingmen's candidate, and the indications are quite favorable to his election. He is a block and pump maker by trade, and eminently worthy Whig support.

We had a letter yesterday from YATES County, againing us that every Whig candidate will be elected in that County this year, while the State Ticket will have a large majority. Last year, Yates gave over 250 for the whole Opposition ticket. Advices from several other Counties are equally cheering

The Cotton Conspiracy to defeat Washington Munt.

Night before last, we are reliably assured, there was held the first meeting of the " Union Safety Committee" of Fifty, appointed by by the late Merchant's Meeting at Castle Garden. (The names of this Committee of Safety have already appeared in The Tribune.) The meeting having been organized, Mr. F. S. LATHROP opened the ball by moving a resolution that the Journal of Commerce's . Union Anti-Abelition Ticket,' headed Horatio Seymour for Governor, be adopted by this Committee and recommended to general support. This was demurred to by one or two Whigs as uncalled for, there being no evidence that all the candidates excluded from that Ticket were hostile to the Fugitive Slave Law. Hereupon one of the wire-workers coolly remarked, . Your objection comes too latethe Ballots have already been printed, and many of them distributed through the State. Mr. James W. Gerard, avowed his resolution to vote the 'Union Ticket'-Horatio Seymour at its head. But the resistance was so strong, from friends of Whig local candidates who could not fail to be seriously compromised by the passage of the resolution, that it was finally modified so as to read that we will support no candidates for any office who are not hostile to Slavery Agitation on any pretext and in any shape, and in this form it passed unanimously.

-Such, we are well-assured, was the substance of the doings of the Committee of Union and Safety at its first meeting .-Having deliberated with closed doors, we have to take such a report of its proceedings as we can get. But we are satisfied that the above is substantially correct. Meantime, we are well assured that One

Hundred and Twenty-five Thousand printed 'Union' ballots, all headed 'For Governor, Horatio Seymour,' have already been distributed to confederates throughout the Country. Much good may it do them The managers have assured their allies elsewhere that they will give Seymour didate for Mayor; but we don't like that | from Six to Ten Thousand majority in this City. We assure our friends in 'the Rural Dis-Mr. Wood, but each inquirer will judge for the surface. It does not reach the rank and file.' We estimate that Two Thousand mercantile Whigs at the utmost will vote for Horatio Seymour, in return for which at least One Thousand Adopted Citizens who vote against us on most of the ticket will vote for Washington Hunt. Our Counties should give the Whig State Ticket | net loss in the City will therefore be about Ten Thousand Majority at least. They KNOW that the State will be right in defiance of the Mercantile defection here. We besecch you to relax no muscle, remit no effort, until next Tuesday's sunset shall have proved that in trusting you they leaned on no broken reed, but on hearts and arms worthy to upbear the standard of Freedom and Hu-

IES JAMES Bowen is on every principle rness and justice, the regular Whig candidate for Congress in the HIId (lower) District. Three of the five Wards composing the District were fairly carried by his friends, and the Delegates who supported his nomination represented twothirds of the Whig voters in the District. He wall not be withdrown, and either he or E. B. Hart will be chosen. The supporters of Mr. Rodman will decide which it shall be.

DP STEPHEN H. BRANCH announces himself as an independent candidate for Congress in the IVth District. He is rather particular about his votes, requiring written ones, and going dead against "the fatal and infamous Caucus system."-Alligators will be plentiful at Washington when Stephen goes there as Member from the IVth. spicy and lively, and rather personal on some of our leading politicians. It forgets to say who edits or publishes it, but is 'for sale at all the Periodical and News Agencies."

SECOND WARD.-The Ratification Meeting of the Regular Whigs in this Ward has been postponed till Monday, and all efforts on their part for conciliation have thus far failed, as it appears from the advertisement in another column.

-The Whig Workingmen of the Second Ward net at the Whig Headquarters, 18 Ann st. last night after the adjournment of the Charter Convention Ratification meeting and organized by the appointment of JOHN H. KEYSER, Chairman and D. C. Henderson, Secretary. The following report from the Second Ward Assembly Nominating Committee was read and received.

nating Committee was read and received.

The Second Ward Assembly Committee beg leave to report that they had faithfully dishled their duty, naving stated their claims to the First Ward Delegates, who astimited a spurious deageation from the Second Ward, and nominated Ar. Benson, who declined in layor of Mr. Elmer. In view of these movements we considered it our duty to protest most strenously against the action of the Delegates from the First Ward, and nominated Andrew Warrs, one of the most popular men in our Ward, who was taken up immediately by the Workingmen, nominated by the Industrial Congress and a large meeting of Carpenters. His nomination has met with the support of the German Whig paper, (the Republican) and has been bailed by the press throughout the State. In his letter of acceptance—which we frust has met the approbation of all true Whigs in both Wardshlet takes high ground for Whig grinciples and the harmony of the party, and declares his willingness to make any concession thought fit for the maintenance of Whig supremacy. Underthese circumstances the Committee would report that Mr. Wlate was well worthly the support of all true Whigs.

The meeting was subsequently eloquently addressed by the Chairman, Ben Frice, J. D. Hennessy, James Bassett, (President of the Carpenners, Adiourned to meet Mondate for Assembly, and the necessity of his election at this time.

On motion the following was adopted:

Resolved, That we will sustain James Howers for Congress, and that we call upon all the independent voters, Mechanics and Workingmen, to respond to his nomination, as he has proved himself to be a worthy representative of our interests in every capacity he has been called upon to fall.

He was followed by Mr. C. Morgan, who was, as usual, very acceptable. During his remarks he put the question to the meeting, whether they would consent to be gagged, as proposed by one of the Resolutions adopted by the Union Meeting in New-York City on Wednesday evening. The response of "No" was overwhelming, followed by the most deafening applause. He also put the question, whether the meeting approved of the Fugitive Slave Law, recently passed by Congress, when another tremendous "No" was given, which showed that the hearts of the multitude present, as well as their voices, were op-

A person in the crowd asked the speaker what he thought of the President's approval of the bill to which he replied, that it was a Whig doctrine, that the President should give his sanction to all the acts of Congress which he belived to be constitutional. On this point the speaker was strong and emphatic. The effect, coming from him, was well received.
